Professor John P. Morgan of New
York, is opening a singing school for
the Barbarescos.

Four specimens of the Calaveras big
trees have been set out on the Capitol
grounds at Sacramento.

Lehigh coal has been discovered in
Monterey county, and a company is
being formed to work the mine.

John C. Grant, a farmer living near
Healdsburg, raised this year 135 tons
of potatoes from 30 acres of land.

The Santa Clara Valley Agricultural
Society took in \$15,571.12 at its
last Fair, and the cost was \$11,649.74.

Eureka, Nevada, is rapidly recovering
from its last disastrous fire. The
new Sentinel building was finished last
Tuesday.

D. Tuttle of Pajaro Valley this year
cultivated eighteen acres in beans, and
obtained a yield therefrom of 43,975
pounds.

Alameda flats are well salted, 18,000

John O. Darron, a distinguished
young lawyer from Nevada, died in
Oakland last Tuesday. He was formerly
a law partner of Judge Hawley, now
of the Supreme Bench of Nevada.

A party of Plutes in Virginia City,
male and female, recently took
possession of the steps in front of the
Presbyterian Church and played there
on a spirited game of "seven up." It
doubtless struck them as a nice, quiet
place for a "little game."

On the evening of November 26th
the Oakland Baptist Church took final
action in the matter, deposing Par-
shall from the ministry and instructing
the clerk of the Church to turn him
over to him for his credentials.

San Jose has 6,762 school children,
being the second city in rank in the
State. The public schools will take a
few weeks vacation for the holidays.
The attendance at the night school is
still on the increase. The number has
already reached fifty-four.

Recently some rich specimens have
been exhibited in Marysville from
the Roberts' claim near Forbestown.
The prospects of this lode are most
flattering. It has been prospected for
several thousand feet and holds out
richly.

In the Crown Point mine, Gold Hill,
on the 24th, while Superintendent
Sam. Jones and P. J. Langan were de-
scending in the cage, and were about
stepping off at the 1100 station, they
were struck by pieces of rock falling
from the 600-level, receiving very se-
vere gashes in the scalp.

The Santa Barbara Press thinks it
must be easier for a Sheriff to collect
delinquent taxes than for a printer to
get cash for his bills.

A WISE WORD TO THE GRANGERS.
J. B. O. in the Connecticut *Courant*,
says something the Grangers will do
well to heed:

Everybody gives advice to the Pa-
trons of Husbandry—why should not
this column try its hand? And the
gist of it is this: Beware of taking big
pay for your services. The nation is
just now writhing in a mighty strug-
gle to free itself from big salaries.
That is precisely the meaning of the
turmoil. If the Patrons can do our
work better for half price, let them
come on. We are ready for such
changes. But if their leaders are
only to make up another ring to secure
lucrative positions, for themselves,
then, speaking for one, yes, for millions,
I prefer the old set "who have
already got their gold watches." Better
a cloyed and pampered aristocracy,
than to be at the mercy of an ever
ravenous and hungry rabble. Though
in real life doubtless the one evolves
the other, and the present common
sense tends to abate both. But some
one says, "the cost of living has in-
creased so much since Washington's
time—his fifty cents would buy more
than my dollar." That's a lie! I can
dress better, feed myself better, and
know more, for fifty cents, than Wash-
ington could for a dollar.

Our genuine civilization would be a
mistake and a fraud—if it is not, be a
long chasm. It is a watchful and ex-
travagant heathenism wherever you
find it not Christian civilization
that costs so much, and demands the
duplication of salaries. Heathenism,
I said, but wise men in all ages have
rejected double pay as a remedy for
public ills.

It is a mistake to suppose that large
pay wins the love, or even the respect
of any one, at bottom. Quite the con-
trary, it is sure to excite jealousy, an-
imosity and hatred. Once or twice,
years ago, I thought—as everybody
appeared to—that big pay was a win-
ning card, and struck for it. It very
soon occurred that my services were
not needed. That is the way it will
end with the Patrons, unless they ad-
dress themselves unselfishly to hard
work, content with small wages.
The President's good angel should
have told him to refuse the double salary;
good sense should have told him that
a nation just done fighting with itself,
must come out from the scratch poorly
enough, no matter how much figures
are made to swell its wealth. Big
pay has consumed the substance of
many a nation, and we half christia-
nized Yankees are wrestling against it
at arm's length, when we should take
a close hug with it to our bosoms.
Jesus refused emoluments in toto, and
the nation is dying for patriotic public
men, who will follow his example.

—[Cal. Granger.]

COULDN'T PRAY.—The Truckee Re-
publican of October 13th relates this
story: A clergyman at the Truckee
Hotel has been seriously ill for sev-
eral days past. A kind-hearted nurse,
in the person of an old pioneer of this
State—a 49'er—has been patiently
waiting on the sick man and ministering
to his physical wants. The nurse
was full of sympathy that he could do to
make his patient comfortable. Fearing that
the sick man was backward in making
known his wants the nurse addressed him as follows: "Ask of me any favor
that you want and I will be delighted
to do it. Don't be afraid to ask." The
clergyman faintly responded, "The 49'er
stood aghast and replied, "I can whip a
grizzly bear, play poker, drink a gallon
of lightning whisky and swear a blue
streak, but haven't seen the inside of a
church for twenty-five years and can't
pray." Don't know where to
begin, what to say, who to talk to,
now when to let up. I'll go out on the
street and whip the biggest man in
town for you—anything but make a
prayer!" The minister entertains a
high opinion of his nurse, and is get-
ting better.

OLD AGE.—It appears by the last
census that there were in the United
States 1,280 men, and 2,236 women
over 100 years old. Quite a formidable
army of centenarians.

The public school report of Anaheim,
for November shows an enrollment of
140 scholars, and an average daily at-
tendance of 125.

The Santa Barbara Press thinks it
must be easier for a Sheriff to collect
delinquent taxes than for a printer to
get cash for his bills.

The Sonora Independent says: "The
water in the lower Phoenix reservoir
having all run out, the frogs and turtles,
on the 13th, formed themselves into
groups, and setting up loud cries,
started all together for the large reservoir,
where there was sufficient to
keep up their existence. The inter-
vening space between the reservoir was
literally covered with these creatures.
They were about two days in all ere
they reached the desired element."

THE MEMPHIS BALE OF COTTON.—
The New York Produce Exchange re-
cently received a bale of cotton from
the Chicago Board of Trade, to be dis-
posed of for the benefit of the Memphis
sufferers. Originally this bale of cot-
ton had been donated by Colonel Reed
Taylor, of Arkansas, and was sold in
Memphis for \$1,500, the proceeds being
devoted to the orphans of Memphis.
Subsequently the cotton was shipped
to St. Louis and realized \$90 more.
The members of the Cincinnati Cham-
ber of Commerce then purchased it at
\$2,000 and sending the money to Mem-
phis and the cotton to the members of
the Chicago Board of Trade; but as
they had a bale of their own to look
after for the same benevolent purpose,
the original was forwarded to the
New York Produce Exchange and \$90
more was added. The successful share-
holder had the option of forwarding
the bale, so far, will offering to the
Chicago Board of Trade, or of accepting
for it \$50 out of the amount sub-
mitted, in which case the bale would
be sent to Boston in the name of the
New York Produce Exchange. Share
holders held by Mr. Jacob Gies, drew the
bale. Much to the surprise of all Mr.
Gies declined the intention to take the
bale, and New York Herald, Nov. 18th.

GOLD IN LOS ANGELES COUNTY.

The San Gabriel Mining District.

Los Angeles county, famed far and wide for its orange groves and vineyards, its magnificent valleys, and great agricultural resources, has not received the credit for its mineral resources to which it is entitled. That this neglect may be remedied, we have lately caused a thorough examination to be made of the mines of this county by a special reporter, with the intention of giving our mining interests the prominence they deserve, and herewith present the first result of his investigations, the field chosen being

THE SAN GABRIEL MINING DISTRICT.

The cañon of the San Gabriel river, in which are located the principal gold mines of this section of the State, is in the Sierra Madre mountains, in the eastern part of the county. The mouth of the cañon is about twenty miles from Los Angeles, and the gold is found in the bed of the river, and in gravel beds along both sides of the cañon for a distance of nearly thirty-five miles.

The first discovery of gold of which we have any account, was made by Captain Hanniger, a citizen of San Gabriel Mission, where he still lives. The principal deposits were found in the immense gravel beds along the sides of the cañon, in some places at the water's edge, and in others as much as four hundred feet above, left there when it was a rushing torrent many times its present size. As soon as the existence of gold in paying quantities was fully established, there was the usual rush of miners, and in the following year of 1859, the cañon presented a busy scene, not less than six hundred men being busily employed, digging out the precious ore. A few of the miners worked in the river bed, none of them however doing more than to turn over the surface gravel, while the great bulk of the force devoted their time to the gravel hills along the sides of the cañon. One can live in the valley close enough to supervise operations, and surround himself with orange groves, and even in the mines, right under the ditches that supply the works, we find fruit trees flourishing, and the miners enjoying dainties of their own raising, that in the Atlantic States can only be produced in hot houses.

Though heretofore only visited by the adventurous gold hunter, the cañon affords a tempting field for the sportsman and tourist, and we wonder that it has not already become a popular resort. For more than thirty miles the river, a clear and beautiful mountain stream, flows over its rocky bed, cleaves its way through towering mountains, whose tops almost shut out the light of day, and presenting at every turn scenes of unusual beauty. Above the ditches the stream is filled with speckled trout, and the tributary canons afford rare sport for the hunter, deer, mountain sheep and even grizzlies being often met with, while small game is quite plenty. At the "Narrows" about twenty-five miles from the mouth, the river flows through perpendicular walls of granite, several hundred feet in height, and scarcely twenty feet apart. Surrounded by tall mountains, breathing the pure invigorating air, and subsisting on mountain trout, venison and quail, the languid Eastern tourist might find a pleasant home in the summer months, and one that would present a strong contrast to the level plains around the city, with their orange groves and tropical flowers.

Special Notices.

Having just returned with a very large stock of California and Eastern jewelry which we purchased from first-hand—the manufacturers—we propose to sell at very low profits. We handle the best of everything in our line. We sell Vandervell & Co's and Rogers & Bros' silver plated ware, and Rogers & Bros' solid silver ware, and we are authorized agents for Southern California and get our goods direct from them. The public should be sure to see that all silver ware is stamped Rogers & Bros, as there is quantity of goods on the market bearing similar trade marks, using the name Rogers in various ways, and as appearing so nearly genuine that less experienced persons, particularly attention, they are liable to be deceived. There is no ware manufactured by Rogers & Bros, except that which bears their trade mark to the letter. But there are several companies manufacturing Rogers' ware, and by close inspection you will see that the trade mark reads differently, and is not made by Rogers & Bros, which is the acknowledged standard plate ware. And as we have handled the same for ten years we can recommend it. We are also sole agents for Black's Patent Interchangeable Spectacles, which are guaranteed to improve the eyesight and never injure as they are all aeronautic lenses. We thoroughly understand, medically and scientifically, fitting all eyes, no matter how difficult the case may be, as our stock comprises everything in the line. We are now introducing new lines of Watches, which are of new designs of Key and Pendulum Winders, with some of our own improvements. We have the materials made especially for us, and import them direct and put them up in the most approved plan, having increased our facilities many times over. We also have a very fine stock of American and Swiss Watches. We always have in stock Chronographs, Fly-Backs, Split and Quarter-Second Watches, of the best makers.

We have an unequalled stock of the very finest Jewelry, which we buy for cash direct from the manufacturers east. Also, the most extensive variety of Clocks, consisting of American, German, Swiss and French manufacture, and a nice line of German Cuckoo Clocks. We have a fine stock of Diamonds and other precious stones; in fact we have a complete stock in our line of business—we would say the largest in Southern California, were it not so common for every one to say theirs is the largest stock. You can easily see by taking a look. Call on us, and if you don't see what you want, ask for it. As our store is small, we keep a fine lot of goods in the safe, which we will show with pleasure. We make a specialty of Repairing of every kind, for which we are prepared in every emergency, and guarantee satisfaction. We do all kinds of Engraving on Silver Ware, Jewelry, Coffin Plates, etc., in a neat and workmanlike manner. All goods sold by us are engraved free of charge. Come early and secure your Holiday Presents, and have them engraved as they are going off rapidly.

We wish to tender our sincere thanks to the public of Los Angeles and Southern California for the flattering success which we have met, far beyond our most sanguine expectations; and we hope by energetic enterprise, a thorough knowledge of and close attention to our business—with a sufficient capital ready to increase as the demands may require—to merit, not only the present patronage, but a large increase in the future.

Respectfully, E. E. FISHER & CO.

Every style of Painting and Glazing done in the highest style of art, and at reasonable rates, by C. Raphael & Co.

All men ought to know that all kinds of gentlemen's Clothing will be made with neatness and dispatch by a regular tailor. The finest Imported and Domestic Cloths always on hand at W. W. Fitzpatrick's, corner of Court and Spring streets.

CITY AND SUBURBS.

The County Court was not in session yesterday.

Three teams left yesterday. Two for San Bernardino and one for Cerro Gordo.

Eight car-loads of iron, and four car-loads of lumber, came up yesterday from Wilmington.

The case of the people vs. Kelly et. ux., is set for hearing on Friday the 6th inst. at 10 A. M.

The steamer Mohongo will arrive at this morning with 225 tons of freight, and passengers for Los Angeles.

One inebriate appeared before the Mayor yesterday. Being out of funds Mr. Clancy kindly offered to board him.

Four car-loads of freight consisting of bullion, hides, can-fruit and merchandise, were dispatched to Wilmington yesterday.

A remarkable instance of rise in stocks is that of Best & Bechler. Two weeks ago they were quoted at \$8, whilst yesterday they opened at \$19. There are several parties in town interested in their rise and fall.

A runaway occurred yesterday on Aliso street. A span of horses ran frantically up the street from the direction of the river, with the front part of a vehicle attached. They were stopped on Los Angeles street.

A gentleman from Havilah reports that two prisoners escaped from the Havilah jail. They got away on the night of the 30th ult. One was condemned on a charge of murder at Bakersfield, and the other for attempted murder at Kernville.

Champions of the Red Cross meet in regular session this evening, at Temples Hall. The order is a most useful one, and is rapidly increasing in numbers. The Champions are preparing for a series of lectures, to be given in this city by prominent and eloquent speakers, in a short time.

The papers are constantly referring to our hotels being overcrowded. This is not so, and it keeps people away.

Our hotels are all doing a good business, but this idea about making up extra beds every night is *brukum*, and only hurts the various establishments.

Fisher & Co. are placing in their establishment a beautiful show case made by Perry, Woodworth & Co. The wood is Spanish mahogany and there are three compartments, the frames of which slide up. The dividers are ornamented with neat rope mouldings and the whole is lined with black velvet.

The interview between Boss Tweed and his jailor as reported in the columns of a contemporary is affecting. The reason the HERALD did not get it in that shape is that the telegraph boy was overpowered, and wept so freely at the graphic incident that his tottering steps would not permit of his reaching any of the other offices.

There are thirty-two gentlemen at present occupying quarters in the City Jail. They express themselves as highly gratified with their treatment. Their daily meals are prepared by a special cook, and for breakfast they enjoy *cafe au lait* and *pain röti*; for dinner *filet de boeuf* and *pommes de terre* with substantial suppers. The beverage in most constant demand is supplied free from the city reservoir.

The Indianapolis State Library acknowledges the receipt of the WEEKLY LOS ANGELES HERALD from the Chamber of Commerce. The St. Paul Library Association also writes thanking the Chamber for the receipt of the same. A very handsome volume of the Annual Report of the Board of Managers of the Produce Exchange, New York, has been also received with the subjoined letter:

NEW YORK PRODUCE EXCHANGE, NEW YORK, Nov. 17, 1873.

Secretary Los Angeles Chamber of Commerce—Dear Sir: By a copy (No. 2) of the Los Angeles Weekly HERALD, just received by us, I perceive that you have organized a Chamber of Commerce at your place. We therefore send you a copy of our Annual Report, the only issue of the kind we have ever put forth, and will thank you to send us anything published by you, such as bylaws, etc. Also, the first number of the weekly, if convenient.

Very respectfully yours,

S. H. GRANT, Sup't.

To-day our Anaheim friends will celebrate the opening of their new hall. It belongs to the Independent Order of Odd Fellows, and has been erected at great expense and with much taste. Several members from Los Angeles will be present.

Stage Arrivals and Departures—Dec. 1.

TELEGRAPH LINE.

Arrivals, Dec. 2—Mr. Lowe, Wm. Cullum.

Departures—Mr. Stowbridge, Mr. McLean, A. Schroeder, C. Rinaldi, W. Moore, Chas. Smith, John Sepesch, Thos. Blanche.

COAST LINE.

Arrivals, Dec. 2—J. D. Gray, C. E. Huss, Mr. Hopperson.

Departures—H. C. Patrick and one other.

SAN BERNARDINO.

Arrivals, Dec. 2—S. T. Curtiss, S. H. Baird, Wm. Morrison and son, D. P. Spitz, T. H. Burns, Wm. Aldrich, and one other.

Departures—Jas. Ferguson, J. L. Groff, J. J. Green, Messrs. Tense, Phelps and Straus.

Progress of the Chamber of Commerce.

Although there was no quorum last night and no business was transacted by the Chamber, a great deal of informal conversation of a very satisfactory nature took place. Governor Downey, Judge Widney, S. Lazard and the Secretary I. W. Lord, were present. The Chamber hopes to shortly have a building specially devoted to its use in which a mineralogical and geological cabinet and other attractions to visitors would have a place. A plan is in contemplation to lease such a hall provided arrangements can be made for its erection. The most desirable site would be directly in the rear of the Library Association Rooms, inasmuch as two large rooms could be erected at a cost of about \$3,000, and the interests of the two institutions are thoroughly identical.

THE COURTS.

District Court—WIDNEY, J. TUESDAY, December 2.

Pelancou vs. Revara & Sangissetti—Action to cancel note and mortgage for \$100,000. St. and Thomas H. and J. C. Sangissetti, Chapman & Smith for defendant.

The case occupied the whole day and is still on trial.

A TRIP TO ANAHEIM.

BY OUR RAPID REPORTER.

Two hours and a half is not bad time from Anaheim to Los Angeles, that's a fact, but I did it nevertheless, and sitting behind Gaddy's team all the time. I had such a lovely time that I hardly know where to begin. The drive is not worth a cent till you get beyond the 17-mile house and then there's a hill from the top of which is a view that clears out all the poets have ever sung of Paradise or the Elysian fields or any other fields. For twenty or thirty miles a valley stretches out, smiling with perpetual verdure, whilst innumerable streams flash in the sunlight, and the garden of Anaheim, with no forbidden trees in it, lies below dotted with elegant residences and blossoming with vineyards and fair orange groves. You know I don't write by the line, but that is how that for elegant language!

On arriving at Anaheim the first gentleman I called on was Capt. Knox, proprietor and editor of the *Southern California*. As a rule I don't like editors, at least I never met one that I could speak to, but included in the list I saw Knox, and in his favor I desire to make an exception. Knowing my habits you will not be surprised to learn that I next visited Fischer's hotel and recruited the inner man. There was also a dinner party from Warmouth and Pinck's back, and he had declined to enroll them. There was also a dinner party from the Ninth Indiana District. From Arkansas but two of the four seats were represented.

The roll being called, 278 out of 300 enrolled answered. The House met at noon. The galleries were crowded, as were most of the seats in the hall. When Clerk McPherson reached Louisiana in calling the roll, he stopped and said that there were two unchallenged certificates from that State, and in the cases of all others there were conflicting sets of papers from Warmouth and Pinck's back, and he had declined to enroll them. There was also a dinner party from the Ninth Indiana District.

The London *Hour* says it has

trustworthy information that by the privately expressed wish of Pius IX, cardinals have been in consultation and selected Cardinal Pecchi, the Archbishop of Perugia, for the next Pope. He was born in 1810, and became a cardinal in 1852; is a hard-working bishop, and is called an ultra-montane, but would not doubt live on terms of amity with the Italian Government. Even the free-thinkers of Italy greatly respect Cardinal Pecchi.

The members of the bar will meet on Thursday to protest against the action of Judge Davis in relation to Tweed's counsel and Stokes' jurors.

The Santa Barbara Press

An independent newspaper,
Devoted to the interests of Southern
California.

J. A. JOHNSON, Editor and Proprietor.

AS THE CHARMING CHARAC-
TER of Southern California, and more
especially that most favored section called
Santa Barbara, becomes known to the world,
it is not surprising that interest should be
aroused in this region, and that the
people in this part of the state should be
awakened. It is the constant aim of the Press to
furnish perfectly reliable information on all
subjects, and to interest the public in the
invaders and home-seekers, which we are now able to do
with greatly increased facilities.

While the PRESS sees fit to promote the
propagation of all the false and all-
legitimate and honorable methods, it is more
directly interested in the growth and coming
development of Santa Barbara. The peculiar
sovereignty of Santa Barbara, the immediate
healthiness, the beauty of the scenery, the
wondrous variety and richness of the soil, the
almost boundless range of products which
abound there, with the like, will all be
known from time to time by facts which can
not be controverted, in the columns of the
PRESS. The person can become
familiar with this part of the state by reading
the PRESS for a year.

Terms of the paper per annum.....\$7.00
Two dollars a week.....50 cents
Currency and Postoffice Money Orders taken
at par.

ALL SPECIAL INDUCEMENT.
All yearly subscribers to the WEEKLY
PRESS will obtain, FREE, an illustrated
Almanac, and a copy of WOOD'S GUIDE to
Santa Barbara, Town and County.

It is an admitted fact that the SANTA BAR-
BARA PRESS is the leading journal of South-
ern California, and has a much larger circu-
lation than any other newspaper in that sec-
tion, being the only one that reaches
the thrifty families, and hence its advantages to
advertisers are obvious.

TESTIMONIALS:

UNIVERSITY OF CALIFORNIA,
DEPARTMENT OF LANGUAGES.

OAKLAND, July 11, 1872.

Herewith I certify that Josephine Lindley
has been a student in my department of
the University for five consecutive terms, viz:
from September 1, 1870, to April 30, 1872. During
these five years she has studied French and
Spanish, and has made rapid progress in both, and
the German language, obtaining always
the highest marks for proficiency and attendance,
and her average credit mark for five terms
was 90.

On entering the University, Miss Lindley
possessed already such knowledge of the
French and Spanish idioms as to be able to
speak them with fluency, correctness,
and a pure pronunciation.

She may now be considered thoroughly in-
fused with the French and Spanish idioms, as well
as with the application of these two languages;
and she may safely be recommended as a can-
didate of great promise for teaching the
French and Spanish languages.

the fog and damp winds of the coast, should
not fail to visit the COLONY OF RIVER-
SIDE. The climate is the best in the state for those
afflicted with Lung and Bronchial Diseases.

Those wishing to engage in the cultivation of
VINES AND SEMI-TROPICAL FRUITS, will find here one of the
best.

Important to Winemakers

THE UNDERSIGNED BEG TO

inform producers of wine that they can
place at their disposal a machine, patented
March 11, 1873, for

Heating Wines,
by which the taste of newness and all
defects are destroyed, and the process is
without future change. The process of
making it like a THREE-YEAR-OLD WINE, and
destroys the germs of fermentation.
